

Quality Policy

Kompleksowa Obsługa Budownictwa "KOBNEXT" Sp. o.o.'s scope of activity covers providing of assembly and building services connected with comprehensive construction of residential, public utility, industrial and specialized buildings as well as modernization, build-up and adaptation of existing objects and repair work in the construction sector according to the latest technology at home and abroad.

The Board of the company strives to achieve the highest possible level of services' quality and to maintain and strengthen our reputation as a reliable, solid and effective business partner.

We make every effort to ensure that our services are delivered on time and meet requirements and expectations of the customer and comply with EU directives, harmonized standards and applicable laws as well as other quality and health & safety requirements.

The high level of services offered by KOBNEXT is confirmed by awards received regularly such as:

- Certificate of Business Credibility CWB granted by Bisnode D&B Polska Sp. z o.o.,
- "Jurajski Produkt Roku" (the Jurassic Product of the Year) granted by Regionalna Izba Przemysłowo-Handlowa (Regional Industrial and Commercial Chamber) in Częstochowa,
- "Budowa Roku" (the Building of the Year) granted by PZITB (Polish Association of Building Engineers and Technicians) and Ministerstwo Infrastruktury i Budownictwa (the Ministry of Infrastructure and Construction),
- „Gazeta Biznesu” granted by „Puls Biznesu” daily,
- "Orły Exportu" granted by „Rzeczpospolita" daily,
- "Diamonds" of the Forbes magazine,
- „Gepard Biznesu" granted by Instytut Nowoczesnego Biznesu (Institute of Modern Business).

The quality policy is realized through:

- control system based on professional dealings:
The Board - Investment Director - Construction Manager - Foreman - Workers
- ensuring adequate human resources and technical infrastructure,

- continuous improvement of employees' qualifications,
- full involvement of employees in meeting Customers' requirements,
- taking care of the environment by preventing pollution and rational waste management,
- keeping close contacts with Customers also after the completion of the investment,
- cooperating only with qualified subcontractors and suppliers on the basis of partnership and a mutual benefit,

The Board intends to implement this quality policy in close cooperation with all employees and all determination as well as to analyse it continuously with the use of systematic quality reviews of all departments of the Company.
